

Cleaning and Maintaining Marble Surfaces on Yachts

Natural stone is being used more and more on luxury yachts. Especially marble is a popular material and is used in bathrooms, dining rooms, pantries and on bar tops. The stone is also used on vanity tops and offers a high level of comfort and an elegant look. To maintain the stone's natural beauty and to prevent damages, the correct maintenance system is essential. Here the most important steps:

1

Basic cleaning of heavily used surfaces

Lithofin MN Power-Clean - acid free – removes greasy dirt deposits and similar dirt

1 L/50 m²

Dilute product 1:3 with water

Pre-wet the surface with water, then scrub it vigorously with the cleaner solution. Wipe up

Rinse well with clear water

Allow to dry

Required tools: bucket, mop, scrubber, squeegee or wet vacuum

2

Regular maintenance

Lithofin MN Wash&Clean - used regularly - leaves well-maintained surfaces

1 L

Add one squirt (approx. 20ml) to the washing water

Wipe the floor with a moist to wet mop. Do not rinse with clear water

Allow to dry. Do not walk on surface

On polished marble, it is advisable to use Lithofin MN Care-Sheen for every third or fourth cleaning operation

Required tool: bucket, mop

3

Special maintenance on work tops and vanity tops

Lithofin MN Easy Clean removes oily and greasy residues. Fast and safe use

500 ml

Spray the surface and allow the product to work for a short while

Remove with a cleaning cloth

Wipe with a dry cloth

Required tools: cleaning cloth
